#### **DETAILED ACTION**

##### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 04/27/09 has been entered.

##### ***Status of Claims***

Claim 7 is withdrawn, claims 1-6 are presented for examination where claims 1 and 6 are amended.

##### ***Status of Previous Rejections***

The 35 U.S.C. 103(a) rejection of claims 1-6 as being unpatentable over Huege et al. (US5616283) has been maintained.

##### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-6 are rejected under 35 U.S.C. 103(a) as obvious over Huege et al. (US5616283).

Huege et al. is applied to instant claims 1-6 as set forth in the 01/27/09 office action.

***Response to Arguments***

Applicant's arguments filed 04/27/09 have been fully considered but they are not persuasive.

Applicant traverses the rejection on the ground that the specific surface area disclosed by Huege et al. is "external specific surface area", compared to the specific surface area recited in the instant application is "internal specific surface area"; and the suspension disclosed by Huege et al. includes a dispersant, while the claimed suspension does not require one. However, the claims as written do not explicitly recite an "internal surface area", thus, the reference still reads on the claims.

In addition, as stated in the previous office action, the size disclosed by Huege et al. would broadly encompass the claimed range, which is prima facie evidence of obviousness MPEP 2144.

***Conclusion***

No claim is allowed.
